

## App control setup guide

1. Download the app: Tuya Smart. See the app's logo in the photo below.

- 2. Create a new account in the app.
- 3. Open the grey box containing the motor parts. Then take the white box in front of you. The box says 'LED controller' on it.
- 4. Keep the circled black button pressed (see photo below). Keep the button pressed until the green light turns purple.

5. Once you have created an account on the Tuya app, you will reach the next screen. Press the circled 'add device' button.
